I tried uploading my files to the weblink with GitHub but it was not opening for me so I included the zip file of all my files.

### User interface issue 1:

Course selection did not allow for multiple course sections to be added at the same time. This restricts users from testing which section works best for them. Now multiple sections can be selected and added with one click.

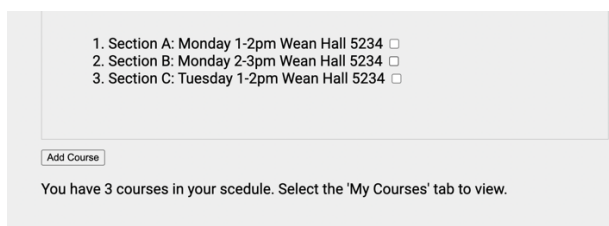

Select your section:

- 1. Section A: Monday 1-2pm Wean Hall 5234 ☐
- 2. Section B: Monday 2-3pm Wean Hall 5234 ☐
- 3. Section C: Tuesday 1-2pm Wean Hall 5234 ☐

Add Course

### User interface issue 2:

No indication of how many courses were selected. Now at the bottom of the screen users can see how many courses are already in their schedule and at the top tab for “My courses” this number is also represented. During recitation the TA said we do not need to add functionality to the cart yet and that we will do that in 6B so as of now this number is static.

1. Section A: Monday 1-2pm Wean Hall 5234 ☐

2. Section B: Monday 2-3pm Wean Hall 5234 ☐

3. Section C: Tuesday 1-2pm Wean Hall 5234 ☐

Add Course

You have 3 courses in your scedule. Select the 'My Courses' tab to view.

## Course Description

[Home](#) | [Courses](#) | [My Courses \(3\)](#)

### User interface issue 3:

After adding courses there was no way to remove them. A drop course button was added with functionality that comply removes the course from the “My course” page.

## My Course
